

# WELCOME TO

## Second newsletter

### Getting ready for the test

In our last project meeting in Kuopio, Finland, we have worked on our competence matrix, module format, module description template and MoU to keep on going to our big issue: spring modules. We have also realized the necessity of agreeing on common language, so we have started working on a taxonomy terminology, a dictionary for common understanding. Parallel to the modules we are developing a Mobility Process Guide

### Six new Modules for

### mobility

- Lithuanian module: 2th of March to 27th of March.
- Spanish module: 2th of March to 27th of March.
- Dutch module: 9th of March to 2th of April.
- English module: 16th of

March to 10th of April.

- Finish module: 7th of April to 1th of May.
- Danish module: 7th of April to 1th of May.

All the modules will be advertised in our web: [automovet.eu](http://automovet.eu), where all the produced materials will be available.

### At the ECVET FORUM in Vienna.

AutoMOVET, which focusses on ECVET for the automotive VET-education, was invited to participate at ECVET FORUM 2014 in Vienna. The forum is an annual conference about ECVET bodies, ECVET national teams and policy makers. The European countries are working at different levels with the implementation of ECVET. It seems that there is still a discussion about the the practical way to use the ECVET-system and the question still remains how much you want to harmonize education in Europe.

### At the EFVET anual meeting in Porto

This year the conference theme was collaboration between VET and business which is completed related to our project. We have taken part of this event running two successful roundtables presenting our project.

### Meetings

So far we have had four project meetings:

- Odense November 2013
- Gouda February 2014
- Kaunas May 2014
- Kuopio November 2014

### Final conference

It will take place in Munich in September 2015.

The agenda will be available on our website

#### News
